

ACCURACY GUARANTEE DISCLAIMER

Fierce rifles will come with an accuracy guarantee at the time of purchase. Each rifle model will have a specific guarantee i.e. .50MOA or .75MOA. The guarantee will be honored for the first 1 year of ownership. Proof of purchase must be provided to receive accuracy warranty work on your rifle.

PLEASE READ CAREFULLY

Before sending your rifle in for an accuracy warranty claim, ensure that you have addressed all possible issues that may be contributing to your inability to achieve the accuracy guarantee for your specific rifle model. Please contact a Fierce Firearms representative before sending your rifle back for review. They will review your shooting practices and advise several possible solutions. If you feel you have exhausted all options and there is still an issue with the rifle, make proper arrangements with Fierce customer service representative. The customer will be responsible for shipping the rifle to Fierce HQ for inspection.

IF, Fierce personnel **IS NOT** able to achieve the 3 shot accuracy grouping (100 Yards), the necessary repairs will be made to ensure your rifle meets our accuracy standards. Fierce will cover the return shipping fee.

IF, Fierce personnel **IS** able to successfully achieve the 3 shot accuracy grouping (100 Yards), you will be charged \$200 labor and ammo plus you will be responsible for the shipping fee when your rifle is returned.

Our goal at Fierce Firearms is to manufacture and sell quality accurate rifles. We stand by our accuracy guarantees and will do what is necessary to ensure you are pleased with the performance of your rifle (within our guarantee). Unfortunately, our guarantee does not cover every circumstance and scenario once the rifle leaves our facility. Remember, factory ammo can vary between lots and has as much to do with the accuracy of your rifle as the rifle itself.

If you are sending your rifle back to us for accuracy warranty work, we ask that you please print / sign this document. Please return this form with your rifle. A Fierce Representative will contact you once the rifle is shot and evaluated.

I, have explored all possible solutions for my rifle not shooting properly. I am unable to shoot a 3 shot group @ 100 Yards and achieve the accuracy guarantee for my rifle.

I, understand and agree to pay the \$200 Rifle evaluation fee if Fierce Firearms is able to achieve the accuracy guarantee once it is returned to Fierce HQ.
